## Work (2004-2020)

08.14-present

**Buttjes Architecture, Inc.**  
Burnaby, British Columbia  
Project architect

SD, DD, CD, CA. Focus on multi-unit residential and mixed-use concrete highrise projects in Canada. Involved with all phases of projects: from conceptual & schematic design stages; to technical coordination; through DP & BP permitting processes; to assembling construction documents; and through contract administration. With minimal supervision, tasks performed include developing details & complete document sets, product & code research, reviewing or issuing submittals, ASIs, RFIs, sitework reports addressing waterproofing, insulation, firestopping & life safety aspects, and technical coordination with consultants, vendors & clients.

02.12-02.14

**Iconstrux, Ltd. (re-branded AMA)**  
Vancouver, British Columbia  
Project architect

SD, DD, CD. Designed-oriented focus on small to medium-scaled, multi-unit, concrete-framed residential and mixed-use projects in Lower Mainland. Involved with most phases of projects: from conceptual & schematic design; to coordination with consultants; through DP and BP permitting processes. Tasks also entailed significant work on presentation drawings, digital rendering, and physical models.

05.04-12.10

**DeStefano and Partners, Ltd.**  
Chicago, Illinois  
Associate / project architect

SD, DD, CD, CA. Corporate-oriented focus on large-scaled commercial, residential, and mixed-use highrises in North America, East Asia, and Middle East. Buildings included both concrete-framed, as well as steel-framed structures. Involved with all phases of projects: from conceptual & schematic design; to coordination with consultants; and assembling permitting & construction document sets. Tasks entailed developing details and complex drawing sets, site planning, space planning & allocation, product & code research, implementing project-specific CAD and BIM protocols, reviewing submittals & RFIs, preparing & leading projects for teams of 3-5 persons, and technical coordination.

## Education

University of California, Berkeley  
College of Environmental Design  
M. Arch. 1999 thesis on transit-oriented developments

University of California, Berkeley  
College of Environmental Design  
B.A. Arch. 1995

University of California, Berkeley  
College of Letters and Science  
B.A. History 1995 thesis on Commonwealth

## Work (1997-2003)

02.01-11.03

**Buffalo Design, Inc.**  
**Seattle, Washington**  
**Project architect**

SD, DD, CD, CA. Design-oriented focus on community libraries (Monroe, WA Public Library pictured on previous page), small-scaled educational & medical facilities, and tenant-improvement projects in the Pacific Northwest region. Involved with most aspects of the design and construction process, from conceptual & schematic phases, through design development & permitting, to bidding & supervised contract administration. Tasks included site planning, detailing, document set production, product & code research, space planning (offices & medical clinics), interior design (detailing & selecting & scheduling materials for all interior surfaces & fixtures), reviewing submittals, and technical coordination.

11.99-11.00

**LMN Architects LLC**  
**Seattle, Washington**  
**Technical staff**

SD, DD, CD. Corporate-oriented focus on large-scaled cultural institutions (concert & performing arts venues), academic buildings (Bellevue Community College pictured here), and commercial facilities (convention centres and large office complexes) in North America. Buildings included both concrete-framed, as well as steel-framed structures. Tasks included detailing, product research, extensive physical model-making, and document set production.

05.97-08.99

**Skidmore, Owings & Merrill LLP**  
**San Francisco, California**  
**Intern architect**

SD, DD, CD. Corporate-oriented focus on large-scaled commercial and residential highrises in East Asia. Buildings included both concrete-framed, as well as steel-framed structures. Tasks included extensive physical model-making, document set production, digital rendering, and developing competition presentations.
