... .-- . -.- -.. . ... .. --. -.

# spec + design

aka “the big idea” + and how to build it

# morse code

yo dawg, i heard you like morse code, so i put a morse code in your morse code so you can morse code while you morse code.

# volume keys

we use them for everything

# vibrator

# output

silent and tactile feedback

**David:** So you want me to text you some random dummy text so you can use it in your presentation? Seriously, get someone else to do it...

**David:** What class is this for again?

**Me:** CS169. Keep going. you're doing great.

**David:** Argh. how much text do you need again? I have a midterm to study for.

**Me:** MOAR.

**David:** ಠ_ಠ

**David:** (ノ °□°)ノ ⌒ ┻━┻

**Me:** lol.

**Me:** wait, how did you do that from your phone???

.-- .... .- - --. --- - -.. --- -. .

# what got done

we finished! a full-featured SMS app
we're shipping! to the Android Market
we learned a lot! and had a great time :)

.-- .... .- - -.. .. -.. -. .----. -

# what didn't

nothing.

# mini-lecture

collaboration. shit's important.

# version control

git + github = <3

protip/ “git stash” + “git stash pop”

check out our repo! http://git.io/ehejRA

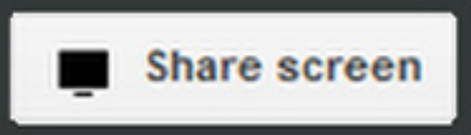
# working + talking

fb group + google docs + hangouts w/ extras

# working remote

## chrome remote desktop

## hangouts share screen



-.-. --- -. -.-. .-.. ..- ... .. --- -.

# conclusion

software engineering is about the TEAM
collaboration+cooperation are key
utilize each team member's abilities
work within your limits, reasonable scope

-. .... .- -. -.- ...

# thanks!
